If you have a Yahoo or AOL account, you must agree to these terms. If you have not yet agreed to these terms, the old Yahoo Terms of Service or the old Affidavit Terms and Conditions (for AOL) will continue to apply to your account. We also share information about you for the purposes described in this privacy policy, including the provision of services you have requested (including those associated with third-party apps and widgets). For products or services offered without logging into an account, the following terms and conditions apply to these products and services as of May 25, 2018.

Without express written permission, you may not reproduce, modify, rent, lease, sell, trade, distribute, transmit, publicly perform, create derivative works for any commercial purpose, sharing or use of or access to the Services (including content, Advertising, APIs and software) or uses them. You agree to comply with all applicable anti-corruption laws, including laws that prohibit unlawful payments to third parties for a corrupt purpose in relation to these Terms. Container TI is the simplest and most effective way to guide the teaching of mathematical and scientific concepts: high interactive computer emulation of TI-84 Plus graphing calculators (compatible with TI-83 Plus family); helps to improve the students understanding by simultaneously displaying several representations of equations; increases the familiarity and comfort of the teacher with the use of graphics computers through pre-installed demonstrations (scripts); provides a clear and easy way for students to follow by displaying key sequences; and integrates easily with existing projection systems and interactive whiteboards.
